FALL COLORS *are here!*

And...

- Crisp cool days
- Fall yardwork
- Football
- Turn back the clock
- Plenty of rain

Fall Plantings

This is a great time to visit your local nursery and look at the fall color of trees, shrubs and groundcover. These fall colors make a wonderful addition to any landscape and the best way to select them is to see them in person. Also, it's a great time to plant!

Here are some varieties to consider:

- **Trees:** Katsura, Japanese Maples and Red Maples
- **Shrubs:** Burning Bush, Barberry & Oakleaf Hydrangea
- **Groundcovers:** Cotoneaster, Kinnikinnik and Mahonia

Expanding Services

Olympic is pleased to announce new services that have been added to complement our longstanding Design, Construction, and Sprinkler Services.

Synthetic Turf

Locally sourced and specifically created for our Pacific Northwest climate, our synthetic turf works great for lawn areas, golf greens, and special pet areas...

Landscape Maintenance

Residential or Commercial, Olympic can provide services weekly, bi-weekly, monthly or even to your own custom schedule...

Snow & Ice Removal

Olympic provides snow and ice melting services to help you keep your commercial property safe during the winter where things can get slippery...

Please let us know how we can serve any of your landscaping needs. We love what we do!

SPOTLIGHT

Synthetic Turf - A Strong New Trend

Click to enlarge photos...

We are pleased to announce the availability of high quality synthetic turf products for your landscaping projects. These products are locally sourced and made specifically for our Pacific Northwest climate. They are available for general purpose lawn areas, golf greens, and special pet areas.

Some advantages of using synthetic turf are:

- Significant savings in watering costs
- No mowing
- No fertilizer or pesticides
- Pet-friendly and anti-microbial
- Permeable backing allowing for proper drainage

Just let us know if you want to consider Synthetic Turf as an alternative for any of your grass surfaces and we will arrange for you to speak with our expert **Chuck Rammell**.

Now's the Time - Winterize Your Sprinkler System

Winterize your sprinkler system before the freezing weather. Various components within your system can freeze and break during sustained freezing spells if the lines are full of water. Normally this

isn't a problem until mid to late December. We may have some frost before then but that is unlikely to hurt your system.

Need help?

You can call us for advice or we can provide this service for you

We love what we do and sure love working with our customers – great friends, great memories.

Would You Give Us a Review??

We would love your feedback! If you have had experience with Olympic as a customer, we would appreciate your rating/review. You can share the thoughts you wish to convey about your experience with us in general, or with individual staff and crew people, on social media sites like [Facebook](#), Google, Yelp, Angie's List, etc.

We would love your feedback!

We appreciate the opportunity to hear your valuable feedback!

Wishing you a basket full of great Fall activities!
