Fall Plantings

This is a great time to visit your local nursery and look at the fall color of trees, shrubs and groundcover. These fall colors make a wonderful addition to any landscape and the best way to select them is to see them in person. Also, it's a great time to plant!

Here are some varieties to consider:

Trees: Amelanchier Canadensis 'Shadblow', Cercidiphyllum Japonicum, and Sourwood

Shrubs: Itea virginica 'Henry's Garnet', Gaultheria Procumbens, Dwarf Burning Bush

Groundcovers: Ajuga Reptans 'Burgundy Glow', and Red-flowering Thyme

How Can We Serve Your Landscaping Needs?

Customer satisfaction is a top priority from landscape design, to installation, and sprinkler service.

Snow and Ice Removal

Olympic provides snow and ice melting services to help you keep your commercial property safe during the winter where things can get slippery...

Commercial Landscape Maintenance

Olympic can provide services weekly, bi-weekly, monthly or even to your own custom schedule...

Drainage

Do you struggle with excess water in your landscape, pour drainage, run off, water logging? We install various drainage solutions to manage the water system for healthier landscapes.

Construction

Big job or small, commercial or residential, we will handle your landscape construction project with the quality and attention to detail for which we are well known...

Please let us know how we can serve any of **your landscaping needs**.
We love what we do!

Now's the Time - Winterize Your Sprinkler System

Winterize your sprinkler system before the freezing weather. Various components within your system can freeze and break during sustained freezing spells if the lines are full of water. Normally this isn't a problem until mid to late December. We may have some frost before then but that is unlikely to hurt your system.

"An Amazing Process!"

"An Amazing Process!"
 "I've created a design that was far beyond anything we could have imagined. And, watching the Olympic crew take the design from paper to reality was an amazing process! Each step required considerable skill, and they were extremely well prepared for each task. We look forward to spending many beautiful hours with Jerry and Brenda in our newly renovated yard!"

"Phenomenal in Making the Plans Work..."
 "Thanks, the team and the entire Olympic staff were great to work with. They were thoughtful, great at planning and phenomenal in making the plans work in the real world. The installation was very important to us, so considering the many site challenges they had to overcome, we especially love the great entry and the fountain integrated with the right effect of lighting. It big thank you to John, Neil, Jason and the whole crew!"
