

**We love what we do,
we love our customers, and we
love what they say about us...**

"The two guys you sent out were just AWESOME. They found a connection point that I never even knew about and I have been here a long time, so I am very pleased with all. They found the problem valve, replaced it and did the spring start-up, all within an hour of time. Great guys!"

- Tim Church, University Place

"I just wanted you to know that the technician you sent was great. He found a break that would have cost me a lot of money. You always have the best guys. He told me that you were the best boss he had ever worked for which is quite a compliment."

- Sally LeMay, DuPont

"I am so pleased with your service tech and how this was all handled. You guys did a great job repairing our backflow assembly and helped us put off having to replace it. Your tester was wonderful.... Jon, was that his name? Very professional and he knew what he was doing. What an enjoyable experience."

- Destiny City Church, Tacoma

*Give us a try, we believe that
you'll enjoy the experience.*

Prompt, thorough service - with the Olympic Guarantee

Since 1977, Olympic Landscape has provided landscape design, construction and service of sprinkler and outdoor lighting systems to residential and commercial customers in the Puget Sound region.

"We enjoy what we do and have become well known for our expert service, quality workmanship and responsive customer service."

Lynn Francis, Service Manager

Sprinkler Service

Olympic offers expert sprinkler service for both residential and commercial customers.

- Service and repair of all sprinkler brands
- Spring start-ups and winter shut-downs; annual maintenance programs available
- System upgrades
- Residential and commercial projects
- Helpful, knowledgeable staff to personally answer questions
- Quick response time
- Well stocked service vans for immediate repairs

Serving Puget Sound for

40 years

Outdoor Lighting Service

Outdoor lighting enhances the appearance of your landscape while providing safety and security.

- System additions and upgrades
- Wiring, connections, and transformer service
- Bulb replacement

An outdoor lighting system will function longer and more efficiently when wiring, connections, and bulbs are all working properly and sized correctly.

Backflow Assembly Testing

Olympic offers a complete backflow testing service including maintenance and repair.

We provide only the service required, in an efficient and professional manner. Should your assembly require service in order to pass the backflow test, we will perform that service in the most appropriate and economical way.

- State certified backflow assembly testers
- Testing and repair of all brands
- Annually scheduled tests available
- Residential and commercial
- Test reports sent directly to both you and your water company
- Parts on hand for most assemblies should repair be required
